

REUNION 2022

Under Constrution

Shipmates:

We just wanted to let everyone know early that things are in the works. After the disappointing 2021 reunion cancellation your Association officers are doubly motivated to put together a crew reunion for the early fall of 2022. The location will be somewhere in the New London, Groton area. The current time frame is late September to early October. We mustn't forget the leaf change area wide traffic jam that now occurs yearly.

We would like to do it sooner are just too complex. We feel planned, smooth running, full together a quick and dirty everyone looks forward to event and just not another

The officers have recruited to assist with our scouting and of needs to be filled: A host tours and events, and a bunch needing to fall into place. to the area we feel our local time to do in depth research of invaluable first hand

but the logistics and lead times it is better to have a well reunion schedule than to throw disappointment. We know that each reunion as a extra special vacation destination.

crew members living in the area organizing. There are just a lot hotel, meal planning, external of other important details Rather than taking a quick trip crew members can take more and already have a great deal knowledge.

I do know for my own travels to the area things have definitely changed since we were young submarine sailors. We have made trips to New England over the years and have witnessed the changes both bad and good over time. It just ain't like it use to be. Things are even more congested and the whole of New England has come to fancy themselves a big tourist destination. With that attitude has come with what we in the DFW area refer to as, "Jerry Jones Pricing." There just ain't no "cheap seats."

We are going to work as hard as we can to put together a great but reasonably priced reunion. But please remember "reasonable" is a relative thing. We are going to make every effort but don't forget your credit card! I think they call it "sticker shock" at the car dealership.

We will be providing a "progress report" email hopefully next spring. I am certain that we will have just a lot more definite detail than we can supply here. We just wanted to let everyone know all is not lost. We will overcome Kings Bay.
